EDUCATION

Delhi Technological University

B.Tech. in Computer Science & Engineering

New Delhi, India

Expected Graduation, May 2027

- **CGPA: 8.93** (upto 4th Sem)
- **Relevant Coursework:** Data Structures & Algorithms, Object Oriented Programming(OOP), Machine Learning, Deep Learning, Database Management Systems (DBMS), Operating System, Computer Networks, Computing in Python (NumPy, Pandas, Scikit-learn)

EXPERIENCE

National Informatics Centre (NIC)

Software Engineering Intern (AI/ML)

New Delhi, India

Dec 2025 – Jan 2026 (Ongoing)

- Selected among top 20 candidates nationwide under the Digital India Internship Program.
- Built a **Retrieval-Augmented Generation (RAG)** system using **vector embeddings and similarity search** to ground LLM outputs in **GDPR, HIPAA, FERPA, and CCPA** regulations.
- Developed a **full-stack AI governance platform** that classifies personal data into **Required, Optional, and Unnecessary** based on **data-minimization and purpose-limitation** principles.
- Implemented a **Node.js + Express RAG backend** with **ChromaDB, OpenAI embeddings, and Groq-hosted LLMs** for **scalable, low-latency inference**.
- Built a **React-based policy-driven UI** with **JSON-schema enforcement and hallucination-safe prompting** to ensure **deterministic, audit-ready compliance outputs**.

PROJECTS

Emplytic - Employee Management System | GitHub | Link

React.js, JavaScript, Tailwind CSS

Built a React-based employee management system enabling HR teams to manage employee records, reducing manual record tracking through real-time CRUD and search functionality.

CineSuggest | GitHub | Link

Python, Streamlit, Scikit-learn, Pandas, TMDb API

Developed a content-based movie recommendation engine using TF-IDF and cosine similarity to suggest movies based on user preferences and metadata.

HabitHub | GitHub

HTML, CSS, JavaScript, Chrome Extensions API, Firebase

Built a Chrome extension used to track website usage and screen time, helping users identify productivity leaks and set time-based goals with Firebase-backed real-time sync.

ACHIEVEMENTS AND AWARDS

- Specialist at Codeforces (Max Rating : 1429)
- Knight at Leetcode (Max Rating : 1903)
- 7 Kyu at AtCoder (Max Rating : 620)
- Solved 1000+ algorithmic problems across LeetCode, Codeforces, and AtCoder
- Achieved 99.1 Percentile in JEE MAINS 2023 (AIR : 10451)
- Qualified in the internal round of Smart India Hackathon (SIH) held at DTU.

SKILLS

- **Programming Languages:** C++, Python, JavaScript
- **Libraries/Frameworks:** React.js, Node.js, NumPy, Pandas, Scikit-learn
- **Tools / Platforms:** Git, VS Code (debugging, profiling), Jupyter Notebook (EDA, model training)

CERTIFICATIONS

- Machine Learning Specialization By DeepLearning.AI - **Coursera**
- Full Stack Web Development Bootcamp By Angela Yu - **Udemy**
- Data Structures & Algorithms using C++ - **Udemy**
